

To Whom It May Concern:

As Esra's neighbor, I have first hand knowledge of the care she extends to her dogs, Penny & Bones but also the other animals in our neighborhood. We have quite the dog community and Esra is always involved in helping wherever needed – in fact, she took time from work to help locate a missing dog!

She is extremely conscientious with their safety and wellbeing; insuring they get exercise and numerous “potty” breaks. I have used her services for my Bernese Mountain Dog, including walks and sleepovers. I would not hesitate to recommend her services to anyone sharing in the same passion and love for their animals.

Your dogs will be well taken care of under Esra's care!
